# Cryoport, Inc. and Subsidiaries Notes to Condensed Consolidated Financial Statements For the Three and Six Months Ended June 30, 2020 and 2019 (Unaudited)

#### Note 1. Management's Representation and Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by Cryoport, Inc. (the "Company", "Cryoport", "our" or "we") in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information, and pursuant to the instructions to Form 10-Q and Article 10 of Regulation S-X promulgated by the Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statement presentation. However, the Company believes that the disclosures are adequate to make the information presented not misleading. In the opinion of management, all adjustments (consisting primarily of normal recurring accruals) considered necessary for a fair presentation have been included.

Operating results for the three and six months ended June 30, 2020 are not necessarily indicative of the results that may be expected for the year ending December 31, 2020. The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2019.

The Company has evaluated subsequent events through the date of this filing and determined that no subsequent events have occurred that would require recognition in the unaudited condensed consolidated financial statements or disclosure in the notes thereto other than as disclosed in the accompanying notes.

#### Note 2. Nature of the Business

Cryoport Inc. ("Cryoport", "we", or "our") is a life sciences services company that is an integral part of the temperature-controlled supply chain supporting the biopharma, reproductive medicine and animal health markets. We are redefining logistics for the life sciences industry by providing a unique platform of critical solutions including highly differentiated temperature-controlled supply chain solutions, which include advanced packaging, informatics, specialty logistics services and biostorage services. Through our products, services and unparalleled expertise, we enable our clients to ship, store and deliver cellular-based materials and drug products as well as other life sciences commodities in a precise, defined temperature-controlled state.

Cryoport's advanced platform, comprised of comprehensive and technology-centric systems and solutions are designed to support the global high-volume distribution of commercial biologic and cell-based products and therapies regulated by the United States Food and Drug Administration (FDA) and other international regulatory bodies for distribution in the Americas, EMEA (Europe, the Middle East, and Africa) and APAC (Asia-Pacific) regions. Cryoport's solutions are also designed to support pre-clinical, clinical trials, Biologics License Applications (BLA), Investigational New Drug Applications (IND) and New Drug Applications (NDA) with the FDA, as well as global clinical trials initiated in other countries, where strict regulatory compliance and quality assurance is mandated. Our industry standard setting Chain of Compliance<sup>TM</sup> solutions, which include vital analytics, such as 'chain-of-condition' and 'chain-of-custody' information in a single data stream, empower our clients' continuous vigilance over their respective commodities. In addition, our Chain of Compliance<sup>TM</sup> standard ensures full traceability of the equipment used and the processes employed, further supporting each client's goal of minimizing risk and maximizing success of their respective new biologics or other products and therapies as they are introduced into the global markets.

On May 14, 2019, the Company acquired substantially all of the assets of Cryogene Partners, a Texas general partnership doing business as Cryogene Labs ("Cryogene"). Cryogene operates a temperature-controlled biostorage solutions business in Houston, Texas. As a result of the Cryogene acquisition, the Company operates in two reportable segments: Global Logistics Solutions and Global Bioservices. See Note 6 for segment information.

The Company is a Nevada corporation and its common stock is traded on the NASDAQ Capital Market exchange under the ticker symbol "CYRX."

#### Note 3. Summary of Significant Accounting Policies

#### Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Cryoport, Inc. and its wholly owned subsidiaries, Cryoport Systems, Inc., Cryoport Netherlands B.V., Cryoport UK Limited and Cryogene, Inc. (collectively, the "Company"). All intercompany accounts and transactions have been eliminated.

#### Cash and Cash Equivalents

Our cash and cash equivalents represent demand deposits, and money market funds which are readily convertible into cash, have maturities of 90 days or less when purchased and are considered highly liquid and easily tradeable.

#### Short-Term Investments

Our investments in equity securities consist of mutual funds with readily determinable fair values which are carried at fair value with changes in fair value recognized in earnings.

Investments in debt securities are classified as available-for-sale and are carried at fair value, with unrealized gains and losses, net of tax, reported as accumulated other comprehensive income (loss) and included as a separate component of stockholders' equity.

Gains and losses are recognized when realized. When we have determined that an other than temporary decline in fair value has occurred, the amount related to a credit loss is recognized in earnings. Gains and losses are determined using the specific identification method.

Short-term investments are classified as current assets even though maturities may extend beyond one year because they represent investments of cash available for operations.

#### Use of Estimates

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from estimated amounts. The Company's significant estimates include the allowance for doubtful accounts, fair value of short-term investments, fair value of assets acquired and liabilities assumed in business combinations, recoverability of goodwill and long- lived assets, allowance for inventory obsolescence, deferred taxes and their accompanying valuations, and valuation of equity-based instruments.

The full extent to which the COVID-19 pandemic will directly or indirectly impact our business, results of operations and financial condition, including revenues, expenses, reserves and allowances, will depend on future developments that are highly uncertain, including as a result of new information that may emerge concerning COVID-19 and the actions taken to contain or treat COVID-19, as well as the economic impact on local, regional, national and international customers and markets.

#### Fair Value of Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, short-term investments, accounts receivable, accounts payable and accrued expenses, finance lease liabilities and the convertible senior notes. The carrying value for all such instruments, except finance lease liabilities and the convertible senior notes, approximates fair value at June 30, 2020 and December 31, 2019 due to their short-term nature. The carrying value of finance lease liabilities approximates fair value because the interest rate approximates market rates available to us for similar obligations with the same maturities. For additional information related to fair value measurements, including the convertible senior notes, see Note 8.

#### Concentrations of Credit Risk

Financial instruments that potentially subject us to concentrations of credit risk consist primarily of cash, cash equivalents and short-term investments. From time to time, we maintain cash, cash equivalent and short-term investment balances in excess of amounts

insured by the Federal Deposit Insurance Corporation ("FDIC") and the Securities Investor Protection Corporation ("SIPC"). Primarily all of our cash, cash equivalents and short-term investments at June 30, 2020 were in excess of amounts insured by the FDIC and SIPC. The Company performs ongoing evaluations of these institutions to limit its concentration risk exposure. We manage such risks in our portfolio by investing in highly liquid, highly-rated instruments, and limit investing in long-term maturity instruments.

Our investment policy requires that purchased instruments in marketable securities may only be in highly-rated instruments, which are primarily U.S. Treasury bills or treasury-backed securities, and also limits our investment in securities of any single issuer.

#### Customers

The Company grants credit to customers within the U.S. and to a limited number of international customers and does not require collateral. Revenues from international customers are generally secured by advance payments except for established foreign customers. The Company generally requires advance or credit card payments for initial revenues from new customers. The Company's ability to collect receivables can be affected by economic fluctuations in the geographic areas and industries served by the Company. Reserves for uncollectible amounts are provided based on past experience and a specific analysis of the accounts, which management believes to be sufficient. Accounts receivable at June 30, 2020 and December 31, 2019 are net of reserves for doubtful accounts of \$170,000 and \$140,000, respectively. Although the Company expects to collect amounts due, actual collections may differ from the estimated amounts. The Company maintains reserves for bad debt and such losses, in the aggregate, historically have not exceeded its estimates.

The Company's customers are in the biotechnology, pharmaceutical, animal health, reproductive medicine and other life science industries. Consequently, there is a concentration of accounts receivable within these industries, which is subject to normal credit risk. As of June 30, 2020, there were two customers that accounted for 35.0% and 12.4%, respectively, of net accounts receivable. As of December 31, 2019, there were two customers that accounted for 31.0% and 20.7%, respectively, of net accounts receivable. There were no other single customers that owed us more than 10% of net accounts receivable at June 30, 2020 and December 31, 2019.

The Company has revenue from foreign customers primarily in Europe, Canada and China. During the six months ended June 30, 2020 and 2019, the Company had revenues from foreign customers of approximately \$4.1 million and \$1.4 million, respectively, which constituted approximately 21.3% and 9.3%, respectively, of total revenues. There were three customers that accounted for 17.0%, 16.6% and 11.0% of revenues during the six months ended June 30, 2020, respectively. For the six months ended June 30, 2019, there were two customers that accounted for 26.9% and 10.5% of total revenues, respectively. No other single customer generated over 10% of revenues during the six months ended June 30, 2020 and 2019.

During the three months ended June 30, 2020 and 2019, the Company had revenues from foreign customers of approximately \$2.0 million and \$928,100, respectively, which constituted approximately 21.2% and 11.0%, respectively, of total revenues. There were three customers that accounted for 16.6%, 16.0% and 11.3% of revenues during the three months ended June 30, 2020, respectively. There were two customers that accounted for 28.6% and 10.4% of revenues during the three months ended June 30, 2019, respectively. No other single customer generated over 10% of revenues during the three months ended June 30, 2020 and 2019.

#### Inventories

The Company's inventories consist of packaging materials and accessories that are sold to customers. Inventories are stated at the lower of cost and net realizable value. Cost is determined using the standard cost method which approximates the first-in, first-to-expire method. Inventories are reviewed periodically for slow-moving or obsolete status. The Company writes down the carrying value of its inventories to reflect situations in which the cost of inventories is not expected to be recovered. Once established, write-downs of inventories are considered permanent adjustments to the cost basis of the obsolete or excess inventories. Raw materials and finished goods include material costs less reserves for obsolete or excess inventories. The Company evaluates the current level of inventories considering historical trends and other factors, such as selling prices and costs of completion, disposal and transportation, and based on the evaluation, records adjustments to reflect inventories at net realizable value. These adjustments are estimates, which could vary significantly from actual results if future economic conditions, customer demand, competition or other relevant factors differ from expectations. These estimates require us to make assessments about future demand for the Company's products in order to categorize the status of such inventories items as slow-moving, obsolete or in excess-of-need. These estimates are subject to the ongoing accuracy of the Company's forecasts of market conditions, industry trends, competition and other factors.

#### Property and Equipment

The Company provides engineered shipping packages ("Cryoport Express® Shippers") to its customers and charges fees for the use of the Cryoport Express® Shipper. The Company's arrangements are similar to the accounting standard for leases since they convey the right to use the Cryoport Express® Shipper over a period of time. The Company retains title to the Cryoport Express® Shippers and provides its customers the use of the Cryoport Express® Shipper for a specific shipping cycle. At the culmination of the customer's shipping cycle, the Cryoport Express® Shipper is returned to the Company, where it is cleaned, disassembled, tested, recertified and placed into inventory for reuse. As a result, the Company classifies the Cryoport Express® Shippers as property and equipment for the per-use Cryoport Express® Shipper program.

Property and equipment are recorded at cost. Cryoport Express® Shippers, which include SmartPak II<sup>TM</sup> Condition Monitoring Systems and/or data loggers, comprise 19% of the Company's net property and equipment balance at June 30, 2020 and December 31, 2019, respectively, and are depreciated using the straight-line method over their estimated useful lives of three years. Cryogene mechanical and liquid nitrogen freezers comprise 21% and 25%, of the Company's net property and equipment balance at June 30, 2020 and December 31, 2019, respectively and are depreciated using the straight-line method over their estimated useful lives of seven to twelve years. Equipment and furniture are depreciated using the straight-line method over their estimated useful lives (generally three to fifteen years) and leasehold improvements are amortized using the straight-line method over the estimated useful life of the asset or the lease term, whichever is shorter.

Betterments, renewals and extraordinary repairs that extend the lives of the assets are capitalized; other repairs and maintenance charges are expensed as incurred. The cost and related accumulated depreciation and amortization applicable to assets retired are removed from the accounts, and the gain or loss on disposition is recognized in the consolidated statements of operations.

#### Leases

The Company determines if an arrangement is a lease at inception. Operating lease right-of-use ("ROU") assets represent the Company's right to use an underlying asset during the lease term, and operating lease liabilities represent the Company's obligation to make lease payments arising from the lease. Operating leases are included in ROU assets, current operating lease liabilities, and long-term operating lease liabilities on our consolidated balance sheets. Finance leases are included in property and equipment, current finance lease liabilities, and long-term finance lease liabilities on our consolidated balance sheets.

Lease ROU assets and lease liabilities are initially recognized based on the present value of the future minimum lease payments over the lease term at commencement date calculated using our incremental borrowing rate applicable to the lease asset, unless the implicit rate is readily determinable. ROU assets also include any lease payments made at or before lease commencement and exclude any lease incentives received. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option. Leases with a term of 12 months or less are not recognized on the condensed consolidated balance sheet. The Company's leases do not contain any residual value guarantees. Lease expense for minimum lease payments is recognized on a straight-line basis over the lease term.

The Company accounts for lease and non-lease components as a single lease component for all its leases.

#### Goodwill

The Company evaluates goodwill on an annual basis in the fourth quarter or more frequently if management believes indicators of impairment exist. Such indicators could include, but are not limited to: (1) a significant adverse change in legal factors or in business climate, (2) unanticipated competition, or (3) an adverse action or assessment by a regulator. The Company compares the fair value of the reporting unit with its carrying amount and then recognizes an impairment charge for the amount by which the carrying amount exceeds the reporting units fair value up to the total amount of goodwill allocated to the reporting unit. The Company assessed triggering events indicating potential goodwill impairment and after assessment, concluded that there was no impairment during the six months ended June 30, 2020.

#### Intangible Assets

Intangible assets are comprised of patents, trademarks, software development costs and the intangible assets acquired in the Cryogene acquisition which include a non-compete agreement, technology, customer relationships and trade name/trademark. The Company capitalizes costs of obtaining patents and trademarks, which are amortized, using the straight-line method over their estimated

useful life of five years once the patent or trademark has been issued. The Company capitalizes certain costs related to software developed for internal use. Software development costs incurred during the preliminary or maintenance project stages are expensed as incurred, while costs incurred during the application development stage are capitalized and amortized using the straight-line method over the estimated useful life of the software, which is five years. Capitalized costs include purchased materials and costs of services. The non-compete agreement, technology, customer relationships and Cryogene trade name/trademark acquired in the Cryogene acquisition are amortized using the straight-line method over the estimated useful lives (see Note 7).

The Company evaluates the recoverability of identifiable intangible assets whenever events or changes in circumstances indicate that an intangible asset's carrying amount may not be recoverable. Such circumstances could include, but are not limited to: (1) a significant decrease in the market value of an asset, (2) a significant adverse change in the extent or manner in which an asset is used, or (3) an accumulation of costs significantly in excess of the amount originally expected for the acquisition of an asset. The Company measures the carrying amount of the asset against the estimated undiscounted future cash flows associated with it. Should the sum of the expected future net cash flows be less than the carrying value of the asset being evaluated, an impairment loss would be recognized. The impairment loss would be calculated as the amount by which the carrying value of the asset being exceeds its fair value. The estimate of fair value is based on various valuation techniques, including the discounted value of estimated fluture cash flows. The evaluation of asset impairment requires the Company to make assumptions about future cash flows over the life of the asset being evaluated. These assumptions require significant judgment and actual results may differ from assumed and estimated amounts. There was no impairment of intangible assets during the six months ended June 30, 2020.

#### Other Long-lived Assets

If indicators of impairment exist, we assess the recoverability of the affected long-lived assets by determining whether the carrying value of such assets can be recovered through undiscounted future operating cash flows. If impairment is indicated, we measure the amount of such impairment by comparing the fair value to the carrying value. We believe the future cash flows to be received from the long-lived assets will exceed the assets' carrying value, and accordingly, we have not recognized any impairment losses through June 30, 2020.

#### **Deferred Financing Costs**

Deferred financing costs represent costs incurred in connection with the issuance of debt instruments and equity financings. Deferred financing costs related to the issuance of debt are amortized over the term of the financing instrument using the effective interest method and are presented in the consolidated balance sheets as an offset against the related debt. Offering costs from equity financings are netted against the gross proceeds received from the equity financings.

#### Income Taxes

The Company accounts for income taxes under the provision of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 740, *Income Taxes*, or ASC 740. As of June 30, 2020 and December 31, 2019, there were no unrecognized tax benefits included in the accompanying condensed consolidated balance sheets that would, if recognized, affect the effective tax rates.

Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations. Based on the weight of available evidence, the Company's management has determined that it is more likely than not that the net deferred tax assets will not be realized. Therefore, the Company has recorded a full valuation allowance against the net deferred tax assets. The Company's income tax provision consists of state minimum taxes.

The Company's policy is to recognize interest and/or penalties related to income tax matters in income tax expense. The Company had no accrual for interest or penalties on its condensed consolidated balance sheets at June 30, 2020 and December 31, 2019 and has not recognized interest and/or penalties in the condensed consolidated statements of operations for the six months ended June 30, 2020 and 2019. The Company is subject to taxation in the U.S. and various state jurisdictions. As of June 30, 2020, the Company is no longer subject to U.S. federal examinations for years before 2016 and for California franchise and income tax examinations for years before 2015. However, to the extent allowed by law, the taxing authorities may have the right to examine prior periods where net

operating losses were generated and carried forward and make adjustments up to the amount of the net operating loss carry forward amount. The Company is not currently under examination by U.S. federal or state jurisdictions.

On March 27, 2020, the United States enacted the Coronavirus Aid, Relief and Economic Security Act (CARES Act). The Cares Act is an emergency economic stimulus package that includes spending and tax breaks to strengthen the United States economy and fund a nationwide effort to curtail the effect of COVID-19. The CARES Act provides sweeping tax changes in response to the COVID-19 pandemic, some of the more significant provisions are removal of certain limitations on utilization of net operating losses, increasing the loss carryback period for certain losses to five years, and increasing the ability to deduct interest expense, as well as amending certain provisions of the previously enacted Tax Cuts and Jobs Act. At June 30, 2020, the Company has not booked any income tax provision/(benefit) for the impact for the CARES Act due the Company's history of net operating losses generated and the maintenance of a full valuation allowance against its net deferred tax assets. The Company will continue to analyze the impact that the CARES Act will have, if any, on its financial position, results of operations or cash flows.

#### Revenue Recognition

Revenues are recognized when control is transferred to customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods and services. Revenue recognition is evaluated through the following five steps: (i) identification of the contract, or contracts, with a customer; (ii) identification of the performance obligations in the contract; (iii) determination of the transaction price; (iv) allocation of the transaction price to the performance obligations in the contract; and (v) recognition of revenue when or as a performance obligation is satisfied.

#### **Performance Obligations**

At contract inception, an assessment of the goods and services promised in the contracts with customers is performed and a performance obligation is identified for each distinct promise to transfer to the customer a good or service (or bundle of goods or services). To identify the performance obligations, the Company considers all of the goods or services promised in the contract regardless of whether they are explicitly stated or are implied by customary business practices. Revenue is recognized when our performance obligation has been met. The Company considers control to have transferred upon delivery because the Company has a present right to payment at that time, the Company has transferred use of the asset, and the customer is able to direct the use of, and obtain substantially all of the remaining benefits from, the asset.

For arrangements under which the Company provides biological specimen storage services and logistics support and management to the customer, the Company satisfies its performance obligations as those services are performed whereby the customer simultaneously receives and consumes the benefits of such services under the agreement.

Revenue generated from short-term logistics and engineering consulting services provided to customers is recognized when the Company satisfies the contractually defined performance obligations.

Our performance obligations on our orders and under the terms of agreements with customers are generally satisfied within one year from a given reporting date and, therefore, we omit disclosure of the transaction price allocated to remaining performance obligations on open orders.

Shipping and handling activities related to contracts with customers are accounted for as costs to fulfill our promise to transfer the associated products pursuant to the accounting policy election allowed under Topic 606 and are not considered a separate performance obligation to our customers. Accordingly, the Company records amounts billed for shipping and handling as a component of revenue. Shipping and handling fees and costs are included in cost of revenues in the accompanying condensed consolidated statements of operations.

Revenues are recognized net of any taxes collected from customers, which are subsequently remitted to governmental agencies.

#### Significant Payment Terms

Pursuant to the Company's contracts with its customers, amounts billed for services or products delivered by the Company are generally due and payable in full within 15 to 60 days from the date of the invoice (except for any amounts disputed by the customer in good faith). Accordingly, the Company determined that its contracts with customers do not include extended payment terms or a significant financing component.

#### **Variable Consideration**

Variable consideration is estimated at the most likely amount that is expected to be earned. Estimated amounts are included in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. Estimates of variable consideration and determination of whether to include estimated amounts in the transaction price are based largely on an assessment of the anticipated performance and all information (historical, current and forecasted) that is reasonably available

Revenues are recorded net of variable consideration, such as discounts and allowances.

#### Warranties

The Company's products and services are generally provided on an "as is" basis and generally no warranties are included in the contracts with customers. Also, the Company does not offer separately priced extended warranty or product maintenance contracts.

#### **Incremental Direct Costs**

The Company expenses incremental direct costs of obtaining a contract (sales commissions) when incurred because the amortization period is generally 12 months or less. The Company does not incur costs to fulfill a customer contract that meet the requirements for capitalization.

#### **Contract Assets**

Typically, we invoice the customer and recognize revenue once we have satisfied our performance obligation. Accordingly, our contract assets comprise accounts receivable, which are recognized when payment is unconditional and only the passage of time is required before payment is due. Generally, we do not have material amounts of other contract assets since revenue is recognized as control of goods is transferred or as services are performed.

#### Contract Liabilities (Deferred Revenue)

Contract liabilities are recorded when cash payments are received in advance of the Company's performance. Deferred revenue was \$330,300 and \$367,900 at June 30, 2020 and December 31, 2019, respectively. During the three and six months ended June 30, 2020, the Company recognized revenues of \$76,800 and \$229,600, respectively from the related contract liabilities outstanding as the services were performed.

#### **Nature of Goods and Services**

The Global Logistics Solutions segment provides Cryoport Express<sup>®</sup> Shippers to its customers and charges a fee in exchange for the use of the Cryoport Express<sup>®</sup> Shipper under long-term master service agreements with customers. The Company's arrangements convey to the customers the right to use the Cryoport Express<sup>®</sup> Shippers over a period of time. The Company retains title to the Cryoport Express<sup>®</sup> Shippers and provides its customers the use of the Cryoport Express<sup>®</sup> Shipper for a specified shipping cycle. At the culmination of the customer's shipping cycle, the Cryoport Express<sup>®</sup> Shipper is returned to the Company.

The Global Bioservices segment provides comprehensive and integrated temperature-controlled biostorage solutions to customers in the life sciences industry and charges a fee under long-term master service agreements with customers. These services include (1) biological specimen cryopreservation storage and maintenance, (2) archiving, monitoring, tracking, receipt and delivery of samples, (3) transport of frozen biological specimens to and from customer locations, and (4) management of incoming and outgoing biological specimens.

The vast majority of our revenues are covered under long-term master service agreements. We have determined that individual Statements of Work or Scope of Work ("SOW"), whose terms and conditions taken with a Master Services Agreement ("MSA"), create the Topic 606 contracts which are generally short-term in nature (e.g., 15-day shipping cycle) for the Global Logistics Solutions segment and up to 12 months for the Global Bioservices segment. Our agreements (including SOWs) generally do not have multiple performance obligations and, therefore, do not require an allocation of a single price amongst multiple goods or services. Prices under these agreements are generally fixed. The Global Logistics Solutions segment recognizes revenue for the use of the Cryoport Express® Shipper at the time of the delivery of the Cryoport Express® Shipper to the enclosed materials, and at the time that collectability

is probable. The Global Bioservices segment recognizes revenue as services are rendered over time and at the time that collectability is probable.

The Company also provides logistics support and management to some customers, which may include onsite logistics personnel. Revenue is recognized for these services as services are rendered over time and at the time that collectability is probable.

The Company also provides short-term logistics and engineering consulting services to some customers, with fees tied to the completion of contractually defined services. We recognize revenue from these services over time as the customer simultaneously receives and consumes the benefit of these services as they are performed.

#### Revenue Disaggregation

The Company operates in two reportable segments and evaluates financial performance on a Company-wide basis. We consider sales disaggregated by end-market to depict how the nature, amount, timing and uncertainty of revenues and cash flows are impacted by changes in economic factors. The following table disaggregates our revenues by major source for the three and six months ended June 30, 2020 and 2019:

	Three Months Ended June 30,			S	June 30,			
(000's omitted )	2020			2019		2020		2019
Global Logistics Solutions:								
Biopharmaceutical	\$	7,283	\$	6,959	\$	14,800	\$	12,599
Reproductive medicine		601		671		1,363		1,455
Animal health		216		257		441		486
Total Global Logistics Solutions		8,100		7,887		16,604		14,540
Global Bioservices		1,289		577		2,559		577
Total revenues	\$	9,389	\$	8,464	\$	19,163	\$	15,117

Our geographical revenues, by origin, for the three and six months ended June 30, 2020 and 2019, were as follows:

	T	Three Months Ended June 30,				Six Months Ended June 30			
(000's omitted )		2020		2019		2020		2019	
Americas	\$	7,403	\$	7,536	\$	15,087	\$	13,705	
Europe, the Middle East and Africa (EMEA)		1,763		724		3,695		1,087	
Asia Pacific (APAC)		223		204		381		325	
Total revenues	\$	9,389	\$	8,464	\$	19,163	\$	15,117	

#### **Engineering and Development Expenses**

Expenditures relating to engineering and development are expensed in the period incurred to engineering and development expense in the statement of operations.

## Stock-Based Compensation

The Company accounts for stock-based payments in accordance with stock-based payment accounting guidance which requires all stock-based payments to be recognized based upon their fair values. The fair value of stock-based awards is estimated at the grant date using the Black-Scholes Option Pricing Model ("Black-Scholes") and the portion that is ultimately expected to vest is recognized as compensation cost over the requisite service period. The determination of fair value using Black-Scholes is affected by the Company's stock price as well as assumptions regarding a number of complex and subjective variables, including expected stock price volatility, risk-free interest rate, expected dividends and expected term. The Company accounts for forfeitures of unvested awards as they occur.

The Company's stock-based compensation plans are discussed further in Note 12.

# Basic and Diluted Net Loss Per Share

We calculate basic and diluted net loss per share using the weighted average number of common shares outstanding during the periods presented. In periods of a net loss position, basic and diluted weighted average common shares are the same. For the diluted

earnings per share calculation, we adjust the weighted average number of common shares outstanding to include dilutive stock options, warrants and shares associated with the conversion of convertible debt outstanding during the periods.

The following shows the amounts used in computing net loss per share for the three and six months ended June 30, 2020 and 2019:

		Three Months Ended June 30,				Six Months Ended June 30,				
	2020			2019		2020		2019		
Net loss	\$	(5,802,746)	\$	(2,528,491)	\$	(9,745,639)	\$	(4,915,393)		
Weighted average common shares issued and										
outstanding - basic and diluted		38,281,087		31,176,166		37,914,818		30,811,109		
Basic and diluted net loss per share	\$	(0.15)	\$	(0.08)	\$	(0.26)	\$	(0.16)		

The following table sets forth the number of shares excluded from the computation of diluted loss per share, as their inclusion would have been anti-dilutive:

	Three Months E	Inded June 30,	Six Months Ended June 30,			
	2020	2019	2020	2019		
Stock options	4,536,585	3,926,229	4,163,301	3,443,629		
Warrants	190,977	1,058,049	186,670	996,702		
Convertible senior notes	4,810,002	1,372,998	4,810,002	1,372,998		
	9,537,564	6,357,276	9,159,973	5,813,329		

#### Segment Reporting

We currently operate in two reportable segments, Global Logistics Solutions and Global Bioservices. The chief operating decision maker is our Chief Executive Officer.

#### Foreign Currency Transactions

Management has determined that the functional currency of its subsidiaries is the local currency. Assets and liabilities of the Netherlands and United Kingdom subsidiaries are translated into U.S. dollars at the period-end exchange rates. Income and expenses are translated at an average exchange rate for the period and the resulting translation gain (loss) adjustments are accumulated as a separate component of stockholders' equity. The translation gain (loss) adjustment totaled \$(2,800) and \$(3,900) for the three and six months ended June 30, 2020. The translation gain (loss) adjustment totaled \$(1,500) and \$(11,600) for the three and six months ended June 30, 2019. Foreign currency gains and losses from transactions denominated in other than respective local currencies are included in earnings. Foreign currency gains and losses for all periods presented were not significant.

#### Off-Balance Sheet Arrangements

We do not currently have any off-balance sheet arrangements.

#### Recently Adopted Accounting Pronouncements

In December 2019, the FASB issued ASU 2019-12 Income Taxes (Topic 740) Simplifying the Accounting for Income Taxes. The Board issued this Update as part of its Simplification Initiative to improve areas of GAAP and reduce cost and complexity while maintaining usefulness. The main provision that impacts the Company is the removal of the exception to the incremental approach of intra-period tax allocation when there is a loss from continuing operations and income or gain from other items (for example, discontinued operations and other comprehensive income). ASU 2019-12 is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2020. Early adoption is permitted, including adoption in an interim period. The Company has elected to early adopt ASU 2019-12. By early adopting, ASU 2019-12 becomes effective as of the beginning of 2020, however, there is no cumulative effect to be recognized with the early adoption.

In August 2018, the FASB issued ASU 2018-13, "Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement," which is part of the FASB disclosure framework project to improve the effectiveness of disclosures in the notes to the financial statements. The amendments in the new guidance remove, modify, and add

certain disclosure requirements related to fair value measurements covered in Topic 820, "Fair Value Measurement." The new standard is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted for either the entire standard or only the requirements that modify or eliminate the disclosure requirements, with certain requirements applied prospectively, and all other requirements applied retrospectively to all periods presented. We adopted this guidance on January 1, 2020. The adoption of this guidance did not have an impact on the Company's Condensed Consolidated Financial Statements or disclosures.

In January 2017, the FASB issued ASU 2017-04, "Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment", which is intended to simplify the subsequent accounting for goodwill acquired in a business combination. Prior guidance required utilizing a two-step process to review goodwill for impairment. A second step was required if there was an indication that an impairment may exist, and the second step required calculating the potential impairment by comparing the implied fair value of the reporting unit's goodwill (as if purchase accounting were performed on the testing date) with the carrying amount of the goodwill. The new guidance eliminates the second step from the goodwill impairment test. Under the new guidance, an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount, and then recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value (although the loss should not exceed the total amount of goodwill allocated to the reporting unit). The guidance requires prospective adoption and will be effective for annual or interim goodwill impairment tests in fiscal years beginning after December 15, 2019. We adopted this guidance on January 1, 2020. The adoption of this guidance did not have an impact on the Company's Condensed Consolidated Financial Statements or disclosures.

#### Accounting Guidance Issued but Not Adopted at June 30, 2020

In January 2020, the FASB issued ASU 2020-01, "Investments—Equity Securities (Topic 321), Investments—Equity Method and Joint Ventures (Topic 323), and Derivatives and Hedging (Topic 815): Clarifying the Interactions between Topic 321, Topic 323, and Topic 815." The new guidance clarifies the interaction of accounting for the transition into and out of the equity method and the accounting for measuring certain purchased options and forward contracts to acquire investments. ASU 2020-01 is effective for fiscal years beginning after December 15, 2020, including interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. We are currently evaluating the impact of adopting this guidance.

In June 2016, the FASB issued ASU 2016-13, "Measurement of Credit Losses on Financial Instruments." This ASU replaces the incurred loss impairment methodology in current U.S. GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information for credit loss estimates on certain types of financial instruments, including trade receivables. In addition, new disclosures are required. In November 2019, the FASB issued ASU 2019-10 "Financial Instruments - Credit Losses (Topic 326), Derivatives and Hedging (Topic 815), and Leases (Topic 842): Effective Dates." whether an entity is eligible to be a smaller reporting company is based on the entity's most recent determination as of November 15, 2019 in accordance with SEC regulations. As a result, ASU 2016-13, as subsequently amended, is effective for the Company for fiscal years beginning after December 15, 2022 based on the Company's smaller reporting company determination as of November 15, 2019. We are currently evaluating the impact of adopting this guidance. The Company currently believes the main impact of the new standard will relate to the Company's assessment of its allowance for doubtful accounts on trade receivables.

#### Note 4. Cash, Cash Equivalents and Short-Term Investments

Cash, cash equivalents and short-term investments consisted of the following as of June 30, 2020 and December 31, 2019:

	June 30, 2020	December 31, 2019		
Cash	\$ 16,969,290	\$ 3,546,893		
Cash equivalents:	•			
Money market mutual fund	27,356,748	43,687,877		
Total cash and cash equivalents	44,326,038	47,234,770		
Short-term investments:				
U.S. Treasury notes	149,506,840	21,094,100		
Mutual funds	14,384,991	25,966,686		
Total short-term investments	163,891,831	47,060,786		
Cash, cash equivalents and short-term investments	\$ 208,217,869	\$ 94,295,556		

#### Available-for-sale investments

The amortized cost, gross unrealized gains, gross unrealized losses and fair value of available-for-sale investments by type of security at June 30, 2020 were as follows:

	Amortized	Unrealized	Unrealized	
	Cost	Gains	Losses	Fair Value
U.S. Treasury notes	\$ 149,225,205	\$ 324,539	\$ (42,904)	\$ 149,506,840
Total available-for-sale investments	\$ 149,225,205	\$ 324,539	\$ (42,904)	\$ 149,506,840

The following table summarizes the fair value of available-for-sale investments based on stated contractual maturities as of June 30, 2020:

	 Amortized Cost	Fair Value
Due within one year	\$ 134,131,660	\$ 134,133,950
Due between one and two years	15,093,545	15,372,890
Total	\$ 149,225,205	\$ 149,506,840

The amortized cost, gross unrealized gains, gross unrealized losses and fair value of available-for-sale investments by type of security at December 31, 2019 were as follows:

	Amortized	Unrealized	Unrealized	
	Cost	Gains	Losses	Fair Value
U.S. Treasury notes	\$ 21,121,659	\$ 26,552	\$ (54,111)	\$ 21,094,100
Total available-for-sale investments	\$ 21,121,659	\$ 26,552	\$ (54,111)	\$ 21,094,100

The following table summarizes the fair value of available-for-sale investments based on stated contractual maturities as of December 31, 2019:

	Amortized Cost			Fair Value
Due within one year	\$	12,043,525	\$	12,046,700
Due between one and two years		9,078,134		9,047,400
Total	\$	21,121,659	\$	21,094,100

The primary objective of our investment portfolio is to enhance overall returns in an efficient manner while maintaining safety of principal, prudent levels of liquidity and acceptable levels of risk. Our investment policy limits interest-bearing security investments to certain types of debt and money market instruments issued by institutions with primarily investment-grade credit ratings, and it places restrictions on maturities and concentration by asset class and issuer.

We review our available-for-sale investments for other-than-temporary declines in fair value below our cost basis each quarter and whenever events or changes in circumstances indicate that the cost basis of an asset may not be recoverable. The evaluation is based on a number of factors, including the length of time and the extent to which the fair value has been below our cost basis, as well as adverse conditions related specifically to the security such as any changes to the credit rating of the security and the intent to sell or whether we will more likely than not be required to sell the security before recovery of its amortized cost basis. Our assessment of whether a security is other-than-temporarily impaired could change in the future based on new developments or changes in assumptions related to that particular security.

During the three and six months ended June 30, 2020, we had realized gains of \$4,900 and \$16,900, respectively, on available-for-sale investments.

# Equity Investments

We held investments in equity securities with readily determinable fair values of \$14.4 million at June 30, 2020. These investments consist of mutual funds that invest primarily in tax-free municipal bonds and treasury inflation protected securities.

Unrealized gains (losses) during 2020 related to equity securities held at June 30, 2020 are as follows:

Net losses recognized during the six months on equity securities	\$ (468,194)
Less: net gains (losses) recognized during the period on equity securities sold during the period	(804,772)
Unrealized gains recognized during the six months on equity securities still held at June 30, 2020	\$ 336,578

#### Note 5. Fair Value Measurements

We measure fair value based on the prices that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based on a three-tier hierarchy that prioritizes the inputs used to measure fair value. These tiers include the following:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date. The fair value hierarchy gives the highest priority to Level 1 inputs.
- Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data. These inputs include quoted prices for similar assets or liabilities; quoted market prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, we utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, as well as consider counterparty credit risk in the assessment of fair value.

We did not elect the fair value option, as allowed, to account for financial assets and liabilities that were not previously carried at fair value. Therefore, material financial assets and liabilities that are not carried at fair value, such as trade accounts receivable and payable, are reported at their historical carrying values.

The carrying values of our assets that are required to be measured at fair value on a recurring basis as of June 30, 2020 and December 31, 2019 approximate fair value because of our ability to immediately convert these instruments into cash with minimal expected change in value which are classified in the table below in one of the three categories of the fair value hierarchy described above:

	 Fair Value Measurements						
	 Level 1	Level 2	Level 3	Total			
June 30, 2020							
Cash equivalents:							
Money market mutual fund	\$ 27,356,748	\$ —	\$ —	\$ 27,356,748			
Marketable equity securities:							
Mutual funds	14,384,991	_	_	14,384,991			
Available-for-sale debt securities:							
U.S. Treasury notes	149,506,840	_	_	149,506,840			
	\$ 191,248,579	\$ —	\$ —	\$ 191,248,579			

	Fair Value Measurements							
		Level 1	Level 2		Level 3			Total
December 31, 2019								
Cash equivalents:								
Money market mutual fund	\$	43,687,877	\$	_	\$	_	\$	43,687,877
Marketable equity securities:								
Mutual funds		25,966,686		_		_		25,966,686
Available-for-sale debt securities:								
U.S. Treasury notes		21,094,100				<u> </u>		21,094,100
	\$	90,748,663	\$		\$		\$	90,748,663

Our equity securities and available-for-sale debt securities, including U.S. treasury notes are valued using inputs observable in active markets for identical securities and are therefore classified as Level 1 within the fair value hierarchy.

We did not have any financial liabilities measured at fair value on a recurring basis as of June 30, 2020.

We carry the convertible senior notes at face value less the unamortized discount and issuance costs on our condensed consolidated balance sheets at present fair value for disclosure purposes only. As of June 30, 2020 the estimated fair value of the convertible senior notes was \$95.2 million as was determined using the net present value of the payments, discounted at an interest rate that is consistent with market and risk-adjusted interest rates, which is a Level 2 input.

#### Note 6. Segment Reporting

We currently operate in two reportable segments: Global Logistics Solutions and Global Bioservices. The Global Logistics Solutions segment provides temperature-controlled logistics solutions to the life sciences industry through its purpose-built proprietary packaging, information technology and specialized cold chain logistics expertise. The Company provides leading edge logistics solutions to the biopharma, reproductive medicine and animal health markets to ship, store and deliver biologic materials, such as immunotherapies, stem cells, CAR-T cell therapies, vaccines and reproductive cells for clients worldwide. The Global Bioservices segment provides a comprehensive temperature-controlled sample management solution to the life science industry, including specimen storage, sample processing, collection, and retrieval. The spectrum of temperature-controlled solutions provided by the Company ranges from ambient, or controlled room temperature (15°C to 25°C), refrigerated (2°C to 8°C), to frozen and cryogenic (below 0°C to as low as -150°C). Our Chief Executive Officer is the chief operating decision maker for both segments.

The Company derives the results of the segments directly from its internal management reporting system. The accounting policies of the operating segments are substantially the same as those described in the summary of significant accounting policies. The Company evaluates segment performance on the basis of revenues and profit or loss. Management uses these operating results, in part, to evaluate the performance of, and to allocate resources to, each of the segments.

The Company's reportable segments are strategic business units that offer different products and services. They are managed separately because each business requires different sales and marketing strategies and operational skillsets. The Global Bioservices segment is currently comprised of the Cryogene business that was acquired in May 2019, and the management at the time of the acquisition was retained.

Reportable segment information is presented in the following tables:

		Three Months Ended June 30, 2020							
	- 0	Hobal Logistics Solutions		Global Bioservices		Total			
Revenues	\$	8,099,533	\$	1,289,473	\$	9,389,006			
Interest expense		(398,256)		_		(398,256)			
Depreciation and amortization expense		(444,767)		(399,514)		(844,281)			
Segment operating profit or loss		(5,967,764)		122,323		(5,845,441)			
Other significant items:									
Segment assets		227,984,586		24,792,001		252,776,587			
Goodwill		_		10,999,722		10,999,722			
Expenditures for long-lived assets		(1,458,775)		(530,512)		(1,989,287)			

		Six Months Ended June 30, 2020						
				Global Bioservices		Total		
Revenues	\$ 16,	604,446	\$	2,558,635	\$	19,163,081		
Interest expense	(4	400,707)		_		(400,707)		
Depreciation and amortization expense	(	839,776)		(828,934)		(1,668,710)		
Segment operating profit or loss	(9,	601,621)		169,949		(9,431,672)		
Other significant items:								
Segment assets	227,	984,586		24,792,001		252,776,587		
Goodwill		_		10,999,722		10,999,722		
Expenditures for long-lived assets	(2,	595,135)		(801,717)		(3,396,852)		

Revenues from one customer of the Company's Global Bioservices segment represents approximately 82.1% and 82.5% of that segment's net revenues and 11.3% and 11.0% of the Company's consolidated net revenues for the three and six months ended June 30,2020, respectively.

# Note 7. Goodwill and Intangible Assets

#### Goodwill

As of June 30, 2020, the carrying value of goodwill is \$11.0 million which is allocated to the Global Bioservices reportable segment.

#### Intangible Assets

The following table presents our intangible assets as of June 30, 2020:

	 Gross Amount	ccumulated mortization	Ca	Net arrying Amount	Weighted Average Amortization Period (years)
Non-compete agreement	\$ 390,000	\$ 84,500	\$	305,500	5
Technology	510,000	110,500		399,500	5
Customer relationships	3,900,000	352,083		3,547,917	12
Cryogene trade name/trademark	480,000	34,667		445,333	15
Cryoport patents and trademarks	333,137	47,375		285,762	_
Total	\$ 5,613,137	\$ 629,125	\$	4,984,012	

The following table presents our intangible assets as of December 31, 2019:

	Gross Amount	ccumulated mortization	Ca	Net rrying Amount	Average Amortization Period (years)
Non-compete agreement	\$ 390,000	\$ 45,500	\$	344,500	5
Technology	510,000	59,500		450,500	5
Customer relationships	3,900,000	189,583		3,710,417	12
Cryogene trade name/trademark	480,000	18,667		461,333	15
Cryoport patents and trademarks	258,203	47,375		210,828	_
Total	\$ 5,538,203	\$ 360,625	\$	5,177,578	

Weighted

Amortization expense for intangible assets for the three and six months ended June 30, 2020 was \$134,250 and \$268,500, respectively.

Amortization expense for intangible assets for the three and six months ended June 30, 2019 was \$44,800.

Expected future amortization of intangible assets as of June 30, 2020 is as follows:

Years Ending December 31,	 Amount
Remainder of 2020	\$ 268,500
2021	537,000
2022	537,000
2023	537,000
2024	432,000
Thereafter	2,386,750
	\$ 4,698,250

#### **Note 8. Convertible Senior Notes**

In May 2020, the Company issued \$115.0 million aggregate principal amount of 3.00% convertible senior notes due in 2025 (the "Notes"), which includes the initial purchasers' exercise in full of their option to purchase an additional \$15.0 million principal amount of the Notes, in a private placement to qualified institutional buyers exempt from registration under the Securities Act of 1933. The Notes are governed by an indenture (the "Indenture") dated May 26, 2020 between the Company, as issuer, and U.S. Bank National Association, as trustee (the "Trustee"). The Company received \$111.3 million from the offering, net of underwriting discounts and commissions of \$3.7 million, and incurred approximately \$345,200 in third-party offering related costs. The Notes bear cash interest at a rate of 3.00%, payable semi-annually on June 1 and December 1 of each year, beginning on December 1, 2020 and will mature on June 1, 2025, unless earlier repurchased, redeemed, or converted in accordance with the terms of the Notes. At June 30, 2020, interest of \$335,400 is included in accounts payable and accrued liabilities in the accompanying condensed consolidated financial statements. The Notes comprise the Company's senior, unsecured obligations and are (i) equal in right of payment with the Company's existing and future senior, unsecured indebtedness; (ii) senior in right of payment to the Company's existing and future indebtedness, to the extent of the value of the collateral securing that indebtedness; and (iv) structurally subordinated to all existing and future indebtedness and other liabilities, including trade payables, and (to the extent the Company is not a holder thereof) preferred equity, if any, of the Company's subsidiaries.

At any time before the close of business on the scheduled trading day immediately before the maturity date, holders of the Notes may convert their Notes at their option into shares of the Company's common stock. The Notes are initially convertible into approximately 4,810,002 shares of the Company's common stock based on the initial conversion rate of 41.8261 shares of the Company's common stock per \$1,000 principal amount of the Notes, which represents an initial conversion price of approximately \$23.91 per share of the Company's common stock. The conversion rate and conversion price are subject to customary adjustments upon the occurrence of certain events. Also, if certain corporate events that constitute a "Make-Whole Fundamental Change" (as defined in the Indenture) occur, then the conversion rate will, in certain circumstances, be increased for a specified period of time and is determined by reference to a make-whole table set forth in the Indenture governing the Notes. However, in no event will the conversion rate be increased to an amount that exceeds 48.10 shares of the Company's common stock per \$1,000 principal amount of Notes. In addition, the holders of the

Notes may require the Company to repurchase the Notes at par value plus accrued and unpaid interest following the occurrence of a "Fundamental Change" (as described in the Indenture).

On or after June 5, 2023, we may redeem the Notes at our option, in whole and not in part, at a cash redemption price equal to the principal amount of the Notes to be redeemed, plus accrued and unpaid interest, if any, if:

- (1) The last reported sale price per share of the Company's common stock exceeds 130% of the conversion price on (i) each of at least 20 trading days, whether or not consecutive, during the 30 consecutive trading days ending on, and including, the trading day immediately before the date the Company send the related redemption notice; and (ii) the trading day immediately before the date the Company sends such notice; and
- (2) A registration statement covering the resale of the shares of the Company's common stock issuable upon conversion of the Notes is effective and available for use and is expected to remain effective and available during the redemption period as of the date the redemption notice is sent.

The Notes contain customary terms and events of default. If an event of default arising out of certain events of bankruptcy, insolvency, or reorganization involving the Company or a significant subsidiary (as set forth in the Indenture) occurs with respect to the Company, the principal amount of the Notes and accrued and unpaid interest, if any, will automatically become immediately due and payable. If any other event of default (as defined in the Indenture) occurs and is continuing, either the Trustee or the holders of at least 25% in aggregate principal amount of the outstanding Notes may declare the principal amount of the Notes to be due and payable immediately by notice to the Company. There were no events of default at June 30, 2020.

The Notes are accounted for in accordance with ASC 470-20, *Debt with Conversion and Other Options* ("ASC 470-20") and ASC 815-40, *Contracts in Entity's Own Equity* ("ASC 815-40"). Under ASC 815-40, to qualify for equity classification (or nonbifurcation, if embedded) the instrument (or embedded feature) must be both (1) indexed to the issuer's stock and (2) meet the requirements of the equity classification guidance. Based upon the Company's analysis, it was determined the Notes do contain embedded features indexed to its own stock, but do not meet the requirements for bifurcation, and therefore do not need to be separately accounted for as an equity component. Since the embedded conversion feature meets the equity scope exception from derivative accounting, and also since the embedded conversion option does not need to be separately accounted for as an equity component under ASC 470-20, the proceeds received from the issuance of the convertible debt was recorded as a liability on the consolidated balance sheet.

The Company incurred approximately \$4.1 million of debt issuance costs relating to the issuance of the Notes, which were recorded as a reduction to the Notes on the consolidated balance sheet. The debt issuance costs are being amortized and recognized as additional interest expense over the expected life of the Notes using the effective interest rate method. We determined the expected life of the debt is equal to the five-year term of the Notes. The effective interest rate on the Notes is 3.74%.

Notes payable consisted of the following at June 30, 2020:

	 June 30, 2020
Principal amount of Notes	\$ 115,000,000
Unamortized debt issuance costs	(4,022,581)
Net carrying value of Notes payable	\$ 110,977,419

Interest expense incurred in connection with the Notes consisted of the following for the three and six months ended June 30, 2020:

Coupon interest	\$ 335,417
Amortization of debt issuance costs	60,105
Total interest expense on Notes	\$ 395,522

The following table summarizes the total gross principal payments due under the Company's Notes payable:

Years Ending December 31,	
Remainder of 2020	\$ _
2021	_
2022	_
2023	_
2024	_
2025	115,000,000
Total Payments	\$ 115,000,000

In connection with the issuance of the Notes, the Company entered into a registration rights agreement (the "Registration Rights Agreement") to use its best efforts to file a registration statement for the resale of the Notes and the shares of the Company's common stock issuable upon conversion of the Notes, to cause the registration statement to become effective by January 31, 2021, and to keep the registration statement continuously effective for a specified period of time. If the Company fails to satisfy certain of its obligations under the Registration Rights Agreement (a "Registration Default"), it will be required to pay additional interest on the Notes. Such additional interest will accrue at a rate per annum equal to 0.25% of the principal amount thereof for the first 90 days beginning on, and including the date on which such Registration Default occurs and, thereafter, at a rate per annum equal to 0.50% of the principal amount thereof. However, in no event will such additional interest, together with any special interest that accrues pursuant to the Indenture accrue on any day on a Note at a combined rate per annum that exceeds 0.50%. Additionally, if a Registration Default exists on the maturity date for the Notes, then, in addition to any additional interest otherwise payable, the Company will be required to make a cash payment to each noteholder in an amount equal to 3% of the principal amount of Notes outstanding and held by such holder as of the close of business on the business day immediately before the maturity date. As of June 30, 2020, the Company has not accrued any fees or expenses associated with the Registration Rights Agreement as no Registration Default exists and, therefore, it is not probable that a payment would be required.

#### Note 9. Commitments and Contingencies

#### Facility and Equipment Leases

We lease 27,600 square feet of corporate, research and development, and logistics facilities in Irvine, California under an operating lease expiring February 2023, subject to our option to extend the lease for two additional five-year periods. The initial base rent is approximately \$24,700 per month. We also lease 8,100 square feet of logistics facilities in Livingston, New Jersey under an operating lease expiring December 2024, subject to our option to extend the lease for an additional five-year period. The initial base rent is approximately \$7,600 per month. In addition, we lease 7,600 square feet of logistics facilities in Hoofddorp, the Netherlands under an operating lease expiring May 2023, subject to our option to extend the lease for two additional five-year periods. The initial base rent is approximately \$5,400 per month. We also lease a total of 21,476 square feet of corporate and logistics facilities in Houston, Texas in two adjacent buildings under operating leases expiring in January 2024. The aggregate initial base rent is approximately \$22,000 per month. We also lease a 4,190 square foot corporate facility in Brentwood, Tennessee under an operating lease expiring August 2024. The initial base rent is approximately \$11,000 per month. These lease agreements contain certain scheduled annual rent increases which are accounted for on a straight-line basis. In addition, we lease certain equipment which expires through January 2024.

## **Employment Agreements**

We have entered into employment agreements with certain of our officers under which payment and benefits would become payable in the event of termination by us for any reason other than cause, or upon a change in control of our Company, or by the employee for good reason.

#### Litigation

The Company may become a party to product litigation in the normal course of business. The Company accrues for open claims based on its historical experience and available insurance coverage.

We record a loss contingency when it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. We also disclose material contingencies when we believe a loss is not probable but reasonably possible. Accounting for contingencies requires us to use judgment related to both the likelihood of a loss and the estimate of the amount or range of loss. The

outcomes of our legal proceedings are inherently unpredictable, subject to significant uncertainties, and could be material to our financial condition, results of operations, and cash flows for a particular period.

#### **Indemnities and Guarantees**

The Company has made certain indemnities and guarantees, under which it may be required to make payments to a guaranteed or indemnified party, in relation to certain actions or transactions. The guarantees and indemnities do not provide for any limitation of the maximum potential future payments the Company could be obligated to make. Historically, the Company has not been obligated nor incurred any payments for these obligations and, therefore, no liabilities have been recorded for these indemnities and guarantees in the accompanying consolidated balance sheets.

The Company indemnifies its directors, officers, employees and agents, as permitted under the laws of the States of California and Nevada. In connection with its facility and equipment leases, the Company has indemnified its lessors for certain claims arising from the use of the facilities and equipment. The duration of the guarantees and indemnities varies and is generally tied to the life of the agreements.

#### Note 10. Leases

The Company has operating and finance leases for corporate offices and certain equipment. These leases have remaining lease terms of two years to approximately ten years, some of which include options to extend the leases for multiple renewal periods of five years each. As of June 30, 2020 and December 31, 2019, assets recorded under finance leases were \$269,400 and \$71,000, respectively, and accumulated depreciation associated with finance leases was \$46,900 and \$22,800, respectively.

The components of lease cost were as follows:

	 Six Months Ended June 30, 2020
Operating lease cost	\$ 601,020
Finance lease cost:	
Amortization of right-of-use assets	\$ 17,900
Interest on finance lease liabilities	 5,011
	 22,911
Total lease cost	\$ 623,931

Other information related to leases was as follows:

Supplemental Cash Flows Information	Six Months Ended June 30, 2020
Cash paid for amounts included in the measurement of lease liabilities:	
Operating cash flows from operating leases	\$ 587,535
Operating cash flows from finance leases	\$ 20,300
Financing cash flows from finance leases	\$ 17,500
Right-of-use assets obtained in exchange for lease obligations:	
Operating leases	\$ 1,804,281
Finance leases	\$ 202,619
Weighted-Average Remaining Lease Term	
Operating leases	7.3 years
Finance leases	3.3 years

Operating leases	6.7 %
Finance leases	5.4 %

Future minimum lease payments under non-cancellable leases as of June 30, 2020 were as follows:

Years Ending December 31,	Operating Leases	Finance Leases	
2020 (excluding the six months ended June 30,2020)	\$ 860,504	\$	42,109
2021	2,036,899		65,357
2022	2,105,754		56,710
2023	1,574,928		58,583
2024	1,469,719		_
2025	1,099,779		_
Thereafter	4,497,242		_
Total future minimum lease payments	13,644,825		222,759
Less imputed interest	(7,456,009)		(18,243)
Total	\$ 6,188,816	\$	204,516
Reported as of June 30, 2020	Operating Leases		Finance Leases
Current lease liabilities	\$ 691,386	\$	57,946
Noncurrent lease liabilities	5,497,430		146,570
Total	\$ 6,188,816	\$	204,516

# Note 11. Stockholders' Equity

# Authorized Stock

The Company has 100,000,000 authorized shares of common stock with a par value of \$0.001 per share, and 2,500,000 undesignated or "blank check" preferred stock, with a par value of \$0.001, of which, 800,000 shares have been designated as Class A Convertible Preferred Stock and 585,000 shares have been designated as Class B Convertible Preferred Stock.

#### Common Stock Issued for Services

During the six months ended June 30, 2020, 1,968 shares of common stock with a fair value of \$41,300 were issued to two members of the board of directors as compensation for services.

During the six months ended June 30, 2019, 3,239 shares of common stock with a fair value of \$49,700 were issued to three members of the board of directors as compensation for services.

#### Common Stock Reserved for Future Issuance

As of June 30, 2020, approximately 8.0 million shares of common stock were issuable upon conversion or exercise of rights granted under prior financing arrangements, stock options and warrants, as follows:

Exercise of stock options	7,741,530
Exercise of warrants	227,477
Total shares of common stock reserved for future issuances	7,969,007

In addition, we reserved 4,810,002 shares of common stock issuable upon conversion of our convertible senior notes (see Note 8).

#### Share Repurchase Program

In October 2019, the Company's Board of Directors approved a share repurchase program authorizing the repurchase of the Company's common stock in the amount of up to \$15.0 million from time to time, in amounts, at prices, and at such times as management deems appropriate and will depend on a number of factors, including the market price of the Company's common stock, general market and economic conditions, and applicable legal requirements. The repurchase program will expire on December 31, 2020 and may be extended, suspended, modified or discontinued at any time. Any repurchases will be funded from cash on hand and future cash flows from operations. The Company did not purchase any shares under this program in 2019 and has not purchased any shares under this program in 2020.

#### June 2019 Public Offering

On June 24, 2019, the Company completed an underwritten public offering (the "Offering") of 4,312,500 shares of its common stock, par value \$0.001 per share (the "Public Offering Shares"). The Public Offering Shares were issued and sold pursuant to an underwriting agreement (the "Underwriting Agreement"), dated June 19, 2019, by and among the Company, on the one hand, and Jefferies LLC and SVB Leerink LLC, as representatives of certain underwriters (collectively, the "Underwriters") at a public offering price per share of \$17.00. The Public Offering Shares include 562,500 shares issued and sold pursuant to the Underwriters' exercise in full of their option to purchase additional shares of common stock pursuant to the Underwriting Agreement. The Company received net proceeds of approximately \$68.8 million from the Offering after deducting underwriting discounts and commissions and estimated offering expenses payable by the Company.

#### Note 12. Stock-Based Compensation

#### Warrant Activity

We typically issue warrants to purchase shares of our common stock to investors as part of a financing transaction or in connection with services rendered by placement agents and consultants. Our outstanding warrants expire in July 2020. A summary of warrant activity is as follows:

	Number of Shares	A E	eighted- verage xercise ce/Share	Weighted- Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (1)
Outstanding — December 31, 2019	1,001,028	\$	3.83		
Issued	_				
Exercised	(757,865)		3.86		
Expired	(15,686)		6.00		
Outstanding — June 30, 2020	227,477	\$	3.57	0.1	\$ 6,069,100
Vested (exercisable) — June 30, 2020	227,477	\$	3.57	0.1	\$ 6,069,100

<sup>(1)</sup> Aggregate intrinsic value represents the difference between the exercise price of the warrant and the closing market price of our common stock on June 30, 2020, which was \$30.25 per share.

Total intrinsic value of warrants exercised during the six months ended June 30, 2020 was \$11.6 million.

# Stock Options

We have five stock incentive plans: the 2002 Stock Incentive Plan (the "2002 Plan"), the 2009 Stock Incentive Plan (the "2009 Plan"), the 2011 Stock Incentive Plan (the "2011 Plan"), the 2015 Omnibus Equity Incentive Plan (the "2015 Plan"), and the 2018 Omnibus Equity Incentive Plan (the "2018 Plan"), (collectively, the "Plans"). The 2002 Plan, the 2009 Plan, the 2011 Plan and the 2015 Plan (the "Prior Plans") have been superseded by the 2018 Plan. In May 2018, the stockholders approved the 2018 Plan for issuances up to an aggregate of 3,730,179 shares. The Prior Plans will remain in effect until all awards granted under such Prior Plans have been exercised, forfeited, cancelled, or have otherwise expired or terminated in accordance with the terms of such awards, but no awards will be made pursuant to the Prior Plans after the effectiveness of the 2018 Plan. As of June 30, 2020, the Company had 1,124,624 shares available for future awards under the 2018 Plan.

During the six months ended June 30, 2020, we granted stock options at exercise prices equal to the quoted market price of our common stock on the grant date. The fair value of each option grant was estimated on the date of grant using Black-Scholes with the following weighted average assumptions:

Expected life (years)	5.3 - 6.3
Risk-free interest rate	0.4% - 1.7 %
Volatility	69.8% – 77.3 %
Dividend yield	0 %

The expected option life assumption is estimated based on the simplified method. Accordingly, the Company has utilized the average of the contractual term of the options and the weighted average vesting period for all options to calculate the expected option term. The risk-free interest rate assumption is based upon observed interest rates appropriate for the expected term of our employee stock options. In April 2019, the Company amended its expected volatility assumption from using exclusively a historical volatility. The Company calculates its expected volatility assumption based on a blended volatility using an average of its historical and implied volatilities over the expected life of the stock-based award. The selection of the blended volatility assumption was based upon the Company's assessment that blended volatility is more representative of the Company's future stock price trends as it weighed in the longer term historical volatility with the near-term future implied volatility. We do not anticipate paying dividends on the common stock in the foreseeable future.

We recognize stock-based compensation expense over the vesting period using the straight-line method. Stock-based compensation expense is recognized only for those awards that vest. We account for the forfeitures of unvested awards as they occur.

Total stock-based compensation expense related to all of our share-based payment awards is comprised of the following:

		onths Ended ne 30,	Six Months Ended June 30,		
	2020	2019	2020	2019	
Cost of revenues	\$ 82,893	\$ 101,999	\$ 151,489	\$ 164,752	
General and administrative	1,442,467	1,343,984	2,517,636	2,284,123	
Sales and marketing	601,319	443,253	969,647	782,328	
Engineering and development	174,818	102,519	283,103	174,287	
	\$ 2,301,497	\$ 1,991,755	\$ 3,921,875	\$ 3,405,490	

A summary of stock option activity is as follows:

	Number of Shares	Weighted- Average Exercise Price/Share	Weighted- Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (1)
Outstanding — December 31, 2019	6,679,581	\$ 7.14		
Granted (weighted-average fair value of \$11.08 per share)	1,573,000	17.34		
Exercised	(465,573)	6.43		
Forfeited	(43,811)	10.12		
Expired	(1,667)	22.68		
Outstanding — June 30, 2020	7,741,530	\$ 9.23	7.0	\$ 162,705,100
Vested (exercisable) — June 30, 2020	5,811,748	\$ 6.75	6.2	\$ 136,551,100
Expected to vest after June 30, 2020 (unexercisable)	1,929,782	\$ 16.70	9.6	\$ 26,154,000

<sup>(1)</sup> Aggregate intrinsic value represents the difference between the exercise price of the option and the closing market price of our common stock on June 30, 2020, which was \$30.25 per share.

Total intrinsic value of options exercised during the six months ended June 30, 2020 was \$7.1 million.

As of June 30, 2020, there was unrecognized compensation expense of \$20.1 million related to unvested stock options, which we expect to recognize over a weighted average period of 3.1 years.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

In this Quarterly Report on Form 10-Q (this "Quarterly Report"), the terms "Cryoport," "Company" and similar terms refer to Cryoport, Inc. and its consolidated subsidiaries, unless the context suggest otherwise.

#### SAFE HARBOR FOR FORWARD LOOKING STATEMENTS:

This Quarterly Report contains forward-looking statements that have been made pursuant to the provisions of the Private Securities Litigation Reform Act of 1995 and concern matters that involve risks and uncertainties that could cause actual results to differ materially from those projected in the forward-looking statements. In some cases, you can identify these statements by terminology such as "may," "will," "should," "could," "expect," "plan, "anticipate," "believe," "estimate," "predict," "potential," "continue" or similar words which are intended to identify forward-looking statements, although not all forward-looking statements contain these words. Although we believe that our opinions and expectations reflected in the forward-looking statements are reasonable as of the date of this Quarterly Report, we cannot guarantee future results, levels of activity, performance or achievements, and our actual results may differ substantially from the views and expectations set forth in this Quarterly Report. You should be aware that these statements are projections or estimates as to future events and are subject to a number of factors that may tend to influence the accuracy of the statements. These forwardlooking statements should not be regarded as a representation by the Company or any other person that the events or plans of the Company will be achieved. You should not unduly rely on these forward-looking statements, which speak only as of the date of this Quarterly Report. We undertake no obligation to publicly revise any forward-looking statement to reflect circumstances or events after the date of this Quarterly Report or to reflect the occurrence of unanticipated events. You should, however, review the factors and risks we describe in the reports we file from time to time with the Securities and Exchange Commission ("SEC"), including those contained in this Quarterly Report, our Annual Report on Form 10-K for the year ended December 31, 2019, as filed with the SEC on March 10, 2020, our Quarterly Report on Form 10-Q for the quarter ended March 31, 2020, as filed with the SEC on May 8, 2020, and those reports filed after the date of this Quarterly Report. Actual results may differ materially from any forward looking statement.

The following management's discussion and analysis of the Company's financial condition and results of operations ("MD&A") should be read in conjunction with the condensed consolidated balance sheet as of June 30, 2020 (unaudited) and the consolidated balance sheet as of December 31, 2019 (audited) and the related unaudited condensed consolidated statements of operations, comprehensive loss, and stockholders equity for the three months ended June 30, 2020 and 2019, and cash flows for the three and six months ended June 30, 2020 and 2019 and the related notes thereto (see Item 1. Financial Statements), as well as the audited consolidated financial statements of the Company for years ended December 31, 2019 and 2018, included in the Company's Annual Report on Form 10-K for the year ended December 31, 2019.

#### General Overview

#### Overview

Cryoport Inc. ("Cryoport", "we", or "our") is a life sciences services company that is an integral part of the temperature-controlled supply chain supporting the biopharma, reproductive medicine and animal health markets. We are redefining logistics for the life sciences industry by providing a unique platform of critical solutions including highly differentiated temperature-controlled logistics and biostorage services. Through our products, services and unparalleled expertise, we enable our clients to ship, store and deliver cellular-based materials and drug products as well as other life sciences commodities in a precise, defined temperature-controlled state. We provide a platform of fully integrated, temperature-controlled solutions to the life sciences industry through a seamless combination of proprietary packaging, information technology, and specialized cold-chain logistics knowhow. Our solutions integrate "chain-of-condition," "chain-of-custody", and Chain of Compliance<sup>TM</sup> information into a single data stream. Our competencies and capabilities are used to develop solutions that are customized to our client's requirements. We provide comprehensive and reliable technology-centric alternatives to traditional temperature-controlled distribution/logistics solutions. Our platform of services are utilized for temperature controlled shipping and storage in the life sciences industry; e.g., personalized medicine, cell therapies, stem cells, cell lines, vaccines, diagnostic materials, semen, eggs, embryos, cord blood, bio-pharmaceuticals, infectious substances, and other commodities that require continuous exposure to certain ranges of precision controlled temperatures. As part of our services, our technologies provide the ability for us, or our client, to monitor location and other specified critical variables for each shipment in real time, which is recorded and archived for each shipment for scientific, quality assurance and regulatory purposes. This information enables an audit trail that can verify the 'in

(BLA), Investigational New Drug Applications and New Drug Application (NDA) with the United States Food and Drug Administration (FDA) as well as commercial distribution. One of the most important features of our Cryoport Express® Solutions is the sophisticated, cloud-based, logistics management platform, which is branded as the Cryoportal® Logistics Management Platform (the "Cryoportal®"). The Cryoportal® supports the management of shipments through a single interface, which includes order entry, document preparation, customs documentation, courier management, near real-time shipment tracking and monitoring, issue resolution, and regulatory compliance requirements. In addition, it provides unique and incisive information dashboards and validation documentation for every shipment through data collected by the SmartPak™ Condition Monitoring System (the "SmartPak™"). The Cryoportal® can record and retain a fully documented history of all Cryoport Express® Shippers, including *chain-of-custody, chain-of-condition, chain-of-identity*, and Chain of Compliance™ information for each shipment, which is used to ensure that the stability of shipped biologic commodities are maintained throughout the shipping cycle. At the client's option, recorded information is archived, allowing the client to meet exacting requirements necessary for scientific work and/or proof of regulatory compliance during the logistics process.

Our Cryoport Express® Solutions include a family of Cryoport Express® Shippers ranging from liquid nitrogen dry vapor shippers (-150°C) to our C3<sup>TM</sup> Shippers, which are powered by phase-change materials. The Cryoport Express® Shippers are precision-engineered assemblies that are reliable, cost-effective and reusable or recyclable. Our liquid nitrogen dry vapor Cryoport Express® Shippers utilize an innovative application of 'dry vapor' liquid nitrogen technology and, most often, include a SmartPak<sup>TM</sup> Condition Monitoring System. Our Cryoport Express® Shippers are purpose built. One example is the launch of our Advanced Therapy Shippers<sup>TM</sup> for the Regenerative Medicine market, the development of which was announced in September 2019. The Cryoport Express® Advanced Therapy Shippers<sup>TM</sup> are designed to ensure that each shipper has only been used for human-based therapies and materials. Additionally, the Advanced Therapy Shippers<sup>TM</sup> provide complete traceability of the condition in which the commodity was shipped and all supporting equipment and components. The Advanced Therapy Shippers<sup>TM</sup> also provide verification information and supply chain support for biopharma companies developing and commercializing cell and gene therapies as well as employ advanced validated cleaning methods to minimize the risk of cross contamination of equipment and materials during use, delivery and distribution of biopharmaceutical materials.

During 2019, we added bioservices to our platform of solutions to provide for our clients' needs for comprehensive and integrated solutions offerings and the expected growth in the global biostorage and bioservices markets, which are driven by the acceleration of clinical trials and the commercialization of regenerative medicine therapies on a global basis. Through our recent acquisition of the biostorage business of Cryogene Partners ("Cryogene"), we now provide cGMP compliant, comprehensive temperature-controlled sample management solution to the life science industry, including specimen storage, sample processing, collection, and retrieval. Cryogene operates a recently expanded 21,000 square foot state-of-the-art biostorage facility located in Houston, Texas, specializing in the secure storage of biological specimens, materials and samples.

#### Strategic Logistics Alliances and Collaborations

We have been successful in establishing strategic alliances around the world, under our Compliance Unified Ecosystem<sup>TM</sup> and "powered by cryoport<sup>®</sup>" strategies, as a long-term method of marketing our solutions to the life sciences industry. We have focused our efforts on leading companies in the logistics services industry as well as participants in the life sciences industry. These strategies drive integration of our solutions into our alliance partner's services.

Cryoport supports the three largest integrators in the world, FedEx, DHL and UPS, with its advanced cryogenic logistics solutions for the life sciences industry and for logistics support. Our Compliance Unified Ecosystem™ includes the following alliance partners: McKesson Specialty Health, a division of McKesson Corporation, World Courier, a part of AmerisourceBergen, Be The Match BioTherapies®, EVERSANA™, Vineti, Medipal Holdings, and Lonza.

The goal of the partnership is to provide fully integrated solutions including, but not limited to, co-location of manufacturing, bioservices and distribution facilities to improve and enhance responsiveness and optimized product workflow, automated data management providing integrated data entry, and process optimization that reduces risk, increases transparency and improves certainty.

The goal of the partnership is to provide fully integrated solutions including, but not limited to, co-location of manufacturing, bioservices and distribution facilities to improve and enhance responsiveness and optimized product workflow, automated data management providing integrated data entry, and process optimization that reduces risk, increases transparency and improves certainty.

We believe Cryoport is well positioned as a life sciences platform company focused on redefining logistics by providing a platform of advanced solutions such as temperature-controlled logistics, bioservices and end-product fulfillment, to the regenerative medicine, reproductive medicine and animal health markets. Our differentiated platform of products and services enable our clients to

ship, store and deliver biologics and other commodities required to remain in a continual cryogenic or temperature-controlled state, such as CAR-T therapies and other cell therapies, gene therapies, embryos for reproductive medicine, vaccines, and stem cells. Our standard-setting Chain of Compliance<sup>TM</sup>, which includes vital analytics, including *chain-of-condition* and *chain-of-custody* information, in a single data stream, allows our clients continuous vigilance over their commodities through traceability of the equipment used and the processes employed to minimize risk and maximize success in the development of new products and therapies.

#### **Life Sciences Agreements**

Our clients include life sciences companies and institutions that have engaged us to support their clinical studies and trials as well as Our clients include life sciences companies and institutions that have engaged us to support their clinical studies and trials as well as the global distribution of their commercial biologics, vaccines and other products with our platform of temperature-controlled logistics and bioservices solutions. Our most significant agreements are as follows:

Novartis. In May 2017, we signed an agreement with Novartis Inc. to manage the global clinical and commercial shipments of its CAR-T cell therapies, including the commercial launch of CAR-T cell therapy, KYMRIAH® (CTL019), for children and young adults with B-cell ALL that is refractory or has relapsed at least twice. On August 30, 2017 Novartis received from the FDA the first ever CAR-T cell approval for the first indication of KYMRIAH®. Subsequently on May 1, 2018, the FDA approved KYMRIAH® for the treatment of adult patients with relapsed/refractory DLBCL. Thereafter, Novartis announced that KYMRIAH® was approved for both ALL and DLBCL by the EU on August 27, 2018. As of June 30, 2020 Novartis, has qualified over 240 treatment centers and over 25 countries worldwide have coverage for at least one indication of KYMRIAH®. Novartis reported Q2 2020 revenue of \$118 million from KYMRIAH® compared to \$58 million for Q2 2019 During the first quarter of 2020 KYMRIAH® received the FDA Regenerative Medicine Advanced Therapy designation for the treatment of follicular lymphoma and they expect to submit a filing for commercial approval in 2021. Under our agreement with Novartis, Cryoport provides its full platform of cryogenic packaging and shipping using its Cryoport Express® Shippers, monitoring using its SmartPak<sup>TM</sup> Condition Monitoring System technology and communications and information recording using its Cryoportal® Logistics Management Platform to manage shipments from the Novartis manufacturing sites to their clinical and commercial sites for patient administration globally.

Kite/Gilead. In July 2017, we signed an agreement with Kite Pharmaceuticals Inc. (a subsidiary of Gilead Sciences) to manage the clinical and commercial shipments of its CAR-T cell therapy, YESCARTA® (Axicabtagene Ciloleucel). On October 18, 2017, YESCARTA® became the first CAR-T therapy approved by the FDA for the treatment of adult patients with relapsed or refractory large B-cell lymphoma. Additionally, YESCARTA® received EU approval on August 27, 2018 for relapsed/refractory DLBCL and PMBCL. As of the end of Q1 2020, Kite had 176 certified centers authorized to treat patients globally. Through these centers approximately 2,900 patients have been treated with YESCARTA®. Gilead reported Q1 2020 revenue of \$140 million from YESCARTA® compared to \$96 million for Q1 2019. In addition to YESCARTA®, Kite filed for regulatory approval in the United States of KTE-X19 for the treatment of mantle cell lymphoma in the fourth quarter of 2019, received a Priority Review designation, and expects commercial approval in the second half of 2020. Further, in the first quarter of 2020 Gilead filed for KTE-X19's approval with the European Medicines Agency and is now under review. Under our agreement with Kite, we provide our platform of cryogenic packaging and shipping using our Cryoport Express® Shippers, monitoring using our SmartPakTM Condition Monitoring System technology and communications and information recording using our Cryoportal® Logistics Management Platform to manage shipments from the Kite manufacturing sites to their clinical and commercial sites of patient administration globally. In April 2020, the agreement was further amended and extended through April 2023, subject to certain termination and extension provisions.

bluebird bio. We are currently supporting bluebird bio's clinical and commercial activity with our platform of temperature-controlled logistics solutions. On June 3, 2019, the EU approved ZYNTEGLO<sup>TM</sup> for patients 12 years and older with certain forms of Transfusion-Dependent BetaThalassemia (TDT). Because of the global pandemic bluebird bio expects to treat their first commercial patients in the second half of this year in Germany. bluebird bio has initiated the rolling BLA submission for approval of ZYNTEGLO<sup>TM</sup> in the U.S. and has indicated that it is planning to complete the BLA submission in mid-2021. Beyond ZYNTEGLO<sup>TM</sup> bluebird bio intends to submit an MAA commercial filing with the EMA for Lenti-D (eli-cel) to treat Cerebral Adrenoleukodystrophy before year end 2020. On July 29, 2020 Bristol Myers Squibb and bluebird bio announced the re-submission of their Biologics License Application (BLA) to the U.S. Food and Drug Administration (FDA) for idecabtagene vicleucel (ide-cel; bb2121), the companies' lead investigational B-cell maturation antigen (BCMA)-directed chimeric antigen receptor (CAR) T cell immunotherapy, for the treatment of adult patients with multiple myeloma who have received at least three prior therapies, including an immunomodulatory agent, a proteasome inhibitor and an anti-CD38 antibody. Looking beyond 2020, bluebird bio has stated that they intend to submit commercial filings for LentiGlobin for the treatment of β-thalassemia and Sickle Cell Disease in 2021.

Lonza. On November 15, 2019, Cryoport announced a partnership with Lonza. Lonza's network of cell and gene therapy facilities spans the US, Europe and Asia Roband serves both clinical and commercial customers globally. Integrating Cryoport's logistics and bioservices solutions with Lonza's manufacturing services and expertise will ensure a trusted and seamless supply chain and drive efficiencies in delivering innovative medicines to patients. The goal of the partnership is to provide fully integrated solutions including, but not limited to, co-location of manufacturing, bioservices and distribution facilities to improve and enhance responsiveness and optimized product workflow, automated data management providing integrated data entry, and process optimization that reduces risk, increases transparency and improves certainty.

#### Chain of Compliance<sup>TM</sup>

During 2018 we introduced Cryoport's Chain of Compliance<sup>TM</sup> solution, as a new industry standard. Cryoport's Chain of Compliance<sup>TM</sup> goes beyond *chain of condition, chain of custody* and *chain of identity* by providing traceability of the equipment and processes supporting each client or patient therapy. The Chain of Compliance<sup>TM</sup> enables Cryoport to recall every transport that an individual Cryoport Express<sup>®</sup> Shipper has taken, the client it supported, the commodity transported, it's performance during transit, and each step that Cryoport performs before the shipper is put back into service. This includes container performance and requalification history, commodity history, courier handling and performance history, calibration history, and correlation competencies that can link in field events to equipment performance.

In June of 2020, the International Organization for Standardization (ISO) published a new guide of international standards (ISO21973). Cryoport is a member of the Standards Coordinating Body (SCB), an organization that works closely with the ISO and the National Institute of Standards and Technology (NIST). ISO21973 provides general requirements and points to consider for transportation service providers, clients, and senders to ensure cell quality, safety and efficacy during the transportation of cells for therapeutic use.

We believe that many elements of the ISO21973 are tied to our Chain of Compliance<sup>TM</sup> solution, including:

- "Documentation for all stages of cell transportation that demonstrates chain of custody throughout the transportation cycle, including but not limited to equipment performance, cleaning and equipment-use history."
- "Qualification (dry shipper, weight, nitrogen evaporation rate and liquid nitrogen capacity)— cleaning and disinfection records."
- "Segregation of human vs. animal derived products to prevent cross contamination."
- "Each reusable container should be controlled with all performance, commodity, cleaning and maintenance records maintained for the container and any reusable components or accessories."
- "History of shipping containers use should be documented and retained, when the shipping container is re-used."

Today ISO21973 is a set of best practices that have been agreed to by a group of international experts. Compliance is voluntary and companies do not have to follow the guidelines. Regulators and governments count on ISO standards to help them develop better regulations, knowing that they have a sound basis thanks to the involvement of globally established experts. We do expect ISO21973 to be reviewed and possibly adopted by the FDA and other regulatory bodies in the future.

We believe the main reason that the FDA and other regulatory bodies are interested in Cryoport's Chain of Compliance<sup>TM</sup> is that it provides the ability to collect, interpret, and leverage comprehensive data enabling a significantly more intelligent supply chain. Rather than reactively trying to determine what has gone wrong after multiple failures, it becomes possible to take a proactive approach. Moreover, we believe that effective implementation provides historical traceability of logistics processes, equipment, and third-party support entities, which enables the critical assessment of the complete supply chain designed to minimize failures and risk.

### **Impact of COVID-19**

In late 2019, a novel strain of coronavirus that causes coronavirus disease (COVID-19) was reported to have surfaced in Wuhan, China, which has since spread globally. In March 2020, the World Health Organization declared COVID-19 a global pandemic. Further, the COVID-19 outbreak has resulted in government authorities around the world implementing numerous measures to try to reduce the impact of COVID-19, such as travel bans and restrictions, quarantines, shelter in place or total lock-down orders. Many countries around

the world have also implemented the temporary closure of non-essential businesses and other material limitations on the conduct of business. As a provider of life saving therapies, Cryoport is deemed to be an essential business and has remained fully open and operational. However, the full extent of this outbreak is still unknown at this point and the related governmental, business and travel restrictions in order to contain this virus are continuing to evolve globally. Accordingly, there is significant uncertainty related to the ultimate impact that this global pandemic will have on the results of our operations.

For example, several life sciences companies, including some of our clients, announced the temporary suspension of clinical studies and trials as well as other COVID-19 related risks that may impact their preclinical and clinical trials, including delays in patient enrollment or difficulties in initiating or expanding clinical trials, interruption of clinical trial activity, and diversion of healthcare resources to focus on COVID-19 activities. In addition, with respect to the impact of the pandemic on the reproductive medicine market, the American Society for Reproductive Medicine (ASRM) and European Society of Human Reproduction and Embryology (ESHRE) both issued recommendations in March of 2020 to temporarily defer fertility treatments and related activities. Both organizations have since updated and recently reaffirmed their recommendation to gradually and judiciously resume activities. While these actions have negatively impacted our revenue in the markets we serve temporarily, we cannot determine the longer-term impact at this point. A number of public announcements by government and clients indicate a regional or partially lifting of COVID-19 related restrictions and we therefore currently expect revenue to start ramping back up gradually over time. Further, virus containment efforts as a result of governmental actions or policies or other initiatives could lead to further disruption in the supply chain and as a result, we may have difficulties sourcing equipment or incur additional direct costs to provide our solutions.

While longer-term client demand for our services overall remains strong, the effects of the COVID-19 pandemic, including the measures above taken by some of our clients have adversely impacted our revenue growth. See Risk Factors, "The recent global pandemic caused by COVID-19 has and could adversely affect our business operations, financial performance and results of operations, the extent of which is uncertain and difficult to predict."

#### **Results of Operations**

#### Three months ended June 30, 2020 compared to three months ended June 30, 2019:

The following table summarizes certain information derived from our condensed consolidated statements of operations:

		nths Ended e 30,		
	2020	2019	\$ Change	% Change
	(\$ in	000's)		
Revenues	\$ 9,389	\$ 8,464	\$ 925	10.9 %
Cost of revenues	(4,262)	(4,125)	(137)	3.3 %
Gross margin	5,127	4,339	788	18.2 %
General and administrative	(5,733)	(3,259)	(2,474)	75.9 %
Sales and marketing	(3,293)	(2,843)	(450)	15.8 %
Engineering and development	(1,947)	(541)	(1,406)	259.8 %
Interest expense	(398)	(334)	(64)	19.3 %

Provision for income taxes	(50)	(9)	(41)	417.8 %
Net loss	\$ (5,803)	\$ (2,528)	\$ (3,275)	129.5 %

The following table shows total revenue by reportable segment for the three months ended June 30, 2020 and 2019:

	Three Months Ended June 30.						
	_	2020 2019 (\$ in 000's)		\$ Change		% Change	
Global Logistics Solutions:		,		,			
Biopharmaceutical	\$	7,283	\$	6,959	\$	324	4.7 %
Reproductive medicine		601		671		(70)	(10.5)%
Animal health		216		257		(41)	(16.3)%
Total Global Logistics Solutions		8,100		7,887		213	2.7 %
Global Bioservices		1,289		577		712	123.7 %
Total revenues	\$	9,389	\$	8,464	\$	925	10.9 %

Revenues. Revenues increased \$925,400 or 10.9% to \$9.4 million for the three months ended June 30, 2020, as compared to \$8.5 million for the three months ended June 30, 2019. This increase was primarily driven by the ramp in commercial revenue from the therapies launched by Novartis and Kite/Gilead in late 2017, the continuing increase in the number of biopharmaceutical customers utilizing our services and the increase in clinical trials supported for these customers, offset by the impact of the COVID-19 pandemic that led to the suspension of a meaningful number of clinical trials late during the first quarter of 2020. Biopharmaceutical revenue increased \$324,800 or 4.7%, to \$7.3 million for the three months ended June 30, 2020 as compared to \$7.0 million for the three months ended June 30, 2019. Commercial revenue increased to \$2.6 million for the three months ended June 30, 2020 as compared to \$1.9 million for the three months ended June 30, 2019. During the three months ended June 30, 2020, we added approximately 12 new biopharma clients and added 26 clinical trials, net of completed or terminated trials, of which 16 trials were in the Americas, 7 in EMEA and 3 in APAC. We now support 491 clinical trials (400 in the Americas, 72 in EMEA and 19 in APAC) compared to 413 clinical trials supported as of June 30, 2019 (353 in the Americas, 53 in EMEA and 7 APAC). The number of Phase III clinical trials supported increased to 66 trials as of June 30, 2020 (48 in the Americas, 17 in EMEA, 1 in APAC). This compares to 52 Phase III trials (39 in the Americas, 12 in EMEA and 1 APAC) supported as of June 30, 2020. This increased activity in the clinical trial space is expected to drive future revenue growth as these clinical trials advance and resulting therapies are commercialized. Revenues in the reproductive medicine market decreased by 10.5% for the three months ended June 30, 2020, as compared to the same period in 2019, as a result of the COVID-19 pandemic and its effects on this market. Our revenue from animal health decreased 16.3% three months ended June 30, 2020, as compared to the same period in 2019 as a result of the COVID-19 pandemic and its effects on this market. Global Bioservices revenue was \$1.3 million for the second quarter of 2020 as a result of the acquisition of the Cryogene business in May 2019.

Gross margin and cost of revenues. Gross margin for the three months ended June 30, 2020 was 54.6% of revenues, as compared to 51.3% of revenues for the three months ended June 30, 2019. The increase in gross margin by three percentage points was primarily due to the increased business volume and pricing adjustments combined with a reduction in freight as a percentage of revenues and a decrease of fixed manufacturing costs. Our cost of revenues are primarily comprised of freight charges, payroll and associated expenses related to our global logistics centers, third-party charges for our European and Asian staging centers in the Netherlands and Singapore, depreciation expenses of our Cryoport Express® Shippers and supplies and consumables used for our solutions. Cost of revenues increased \$136,800, or 3.3%, to \$4.3 million for the three months ended June 30, 2020, as compared to \$4.1 million in the same period in 2019. The increase in cost of revenues was primarily due to freight charges from the increased volume of shipments and an increase in operating costs for our global logistics centers.

General and administrative expenses. General and administrative expenses increased \$2.5 million for the three months ended June 30, 2020 or 75.9% as compared to the same period in 2019. This increase is primarily due to \$1.7 million in consulting and legal services for acquisition-related activities, an increase in wages and associated employee costs of \$334,400 of which \$188,500 is as a result of the Cryogene acquisition in May 2019, an increase in facility and other overhead allocations of \$378,900, an increase in stock-based compensation of \$85,100, an increase in insurance premiums of \$87,900 and an increase in patent legal fees of \$63,100. These increases were partially offset by an overall decrease of \$82,500 for public company related expenses (including legal, audit and internal control audit fees) and a decrease of \$74,100 for travel and lodging expenses.

Sales and marketing. Sales and marketing expenses, which includes logistics operations, increased \$449,800 or 15.8% and is primarily due to an increase in wages and associated employee costs of \$478,700 for the expansion of our domestic logistics force, which includes a reduction of recruiting and relocation fees of \$85,300, an increase in stock-based compensation of \$136,400 and an increase in facility and other overhead allocations of \$102,000. These increases were partially offset by a decrease of \$190,000 for travel and lodging expenses and a decrease of \$95,300 in marketing related activities.

Engineering and development expenses. Engineering and development expenses increased \$1.4 million or 259.8% for the three months ended June 30, 2020, as compared to the same period in 2019. The increase is primarily due to an increase of \$1.0 million in consulting expenses directed at further enhancing our logistics solutions, an increase of \$293,200 in wages and associated employee costs to add to add software development and engineering resources, an increase in stock-based compensation of \$62,100, an increase in facility and other overhead allocations of \$18,700. We continually strive to improve and expand the features of our Cryoport Express® Solutions. Our primary developments are directed towards facilitating the safe, reliable and efficient shipment of life science commodities through innovative and technology-based solutions. We supplement our internal engineering and development resources with subject matter experts and consultants.

*Interest expense*. Interest expense increased \$64,300 for the three months ended June 30, 2020, as compared to the three months ended June 30, 2019 as a result of the 3% convertible senior notes issued in May 2020.

Other income, net. Other income, net for the three months ended June 30, 2020 as compared to the same period in 2019, increased by \$371,300 due to a net \$180,300 gain on equity securities in addition to investment interest and dividend income on our cash and cash equivalents and short-term investments.

#### Six months ended June 30, 2020 compared to six months ended June 30, 2019:

The following table summarizes certain information derived from our condensed consolidated statements of operations:

	Six Months Ended June 30.					
	2020 2019		5	Change	% Change	
	(\$in 000's)					
Revenues	\$ 19,163	\$	15,117	\$	4,046	26.8 %

Total Global Logistics Solutions	16,604	14,540	2,064	14.2 %
Global Bioservices	2,559	577	1,982	343.8 %
Total revenues	\$ 19,163	\$ 15,117	\$ 4,046	26.8 %

Revenues. Revenues increased \$4.0 million or 26.8% to \$19.1 million for the six months ended June 30, 2020, as compared to \$15.1 million for the six months ended June 30, 2019. This increase was primarily driven by the ramp in commercial revenue from the therapies launched by Novartis and Kite/Gilead in late 2017, the continuing increase in the number of biopharmaceutical customers utilizing our services and the increase in clinical trials supported for these customers, offset by the impact of the COVID-19 pandemic that led to the suspension of a meaningful number of clinical trials late during the first quarter. Biopharmaceutical revenue increased \$2.2 million or 17.5%, to \$14.8 million for the six months ended June 30, 2020 as compared to \$12.6 million for the six months ended June 30, 2020 as compared to \$3.3 million for

the six months ended June 30, 2019. During the six months ended June 30, 2020, we added approximately 45 new biopharma clients and added 55 clinical trials, net of completed or terminated trials, of which 39 trials were in the Americas, 11 in EMEA and 5 in APAC. We now support 491 clinical trials (400 in the Americas, 72 in EMEA and 19 in APAC) compared to 413 clinical trials supported as of June 30, 2019 (353 in the Americas, 53 in EMEA and 7 APAC). The number of Phase III clinical trials supported increased to 66 trials as of June 30, 2020 (48 in the Americas, 17 in EMEA and 1 in APAC). This compares to 52 Phase III trials (39 in the Americas, 12 in EMEA and 1 APAC) supported as of June 30, 2019. This increased activity in the clinical trial space is expected to drive future revenue growth as these clinical trials advance and resulting therapies are commercialized. Revenues in the reproductive medicine market decreased by 6.3% for the six months ended June 30, 2020, as compared to the same period in 2019, as a result of the COVID-19 pandemic and its effects on this market. Our revenue from animal health decreased by 9.3% for the six months ended June 30, 2020, as compared to the same period in 2019 as a result of the COVID-19 pandemic and its effects on this market. Global Bioservices revenue was \$2.6 million for 2020 as a result of the acquisition of the Cryogene business in May 2019.

Gross margin and cost of revenues. Gross margin for the six months ended June 30, 2020 was 54.2% of revenues, as compared to 51.5% of revenues for the six months ended June 30, 2019. The increase in gross margin by almost three percentage points was primarily due to the increased business volume and pricing adjustments combined with a reduction in freight as a percentage of revenues and a decrease of fixed manufacturing costs. Our cost of revenues are primarily comprised of freight charges, payroll and associated expenses related to our global logistics centers, third-party charges for our European and Asian staging centers in the Netherlands and Singapore, depreciation expenses of our Cryoport Express® Shippers and supplies and consumables used for our solutions. Cost of revenues increased \$1.5 million, or 19.9%, to \$8.8 million for the six months ended June 30, 2020, as compared to \$7.3 million in the same period in 2019. The increase in cost of revenues was primarily due to freight charges from the increased volume of shipments and an increase in operating costs for our global logistics centers.

General and administrative expenses. General and administrative expenses increased \$3.8 million for the six months ended June 30, 2020 or 63.9% as compared to the same period in 2019. This increase is primarily due to \$1.7 million in consulting and legal services for acquisition-related activities, an increase in wages and associated employee costs of \$950,600 of which \$188,500 is as a result of the Cryogene acquisition in May 2019, an increase in facility and other overhead allocations of \$865,400, an increase in stock-based compensation of \$188,400, and an increase in insurance premiums of \$182,700 and an increase in patent legal fees of \$96,900. These increases were partially offset by an overall decrease of \$126,400 for public company related expenses (including legal, audit and internal control audit fees) and a decrease of \$57,800 for travel and lodging expenses.

Sales and marketing. Sales and marketing expenses, which includes logistics operations, increased \$1.1 million or 21.4% for the six months ended June 30, 2020 and is primarily due to an increase in wages and associated employee costs of \$969,200 which includes recruiting and relocation fees of \$46,800 for the expansion of our domestic logistics force, an increase in facility and other overhead allocations of \$165,300 and an increase of \$18,300 in marketing and advertising promotions. These increases were partially offset by a decrease of \$194,800 for travel and lodging expenses.

Engineering and development expenses. Engineering and development expenses increased \$2.6 million or 257.0% for the six months ended June 30, 2020, as compared to the same period in 2019. The increase is primarily due to an increase of \$1.9 million in consulting expenses directed at further enhancing our logistics solutions, an increase of \$478,800 in wages and associated employee costs to add to add software development and engineering resources, an increase in stock-based compensation of \$90,000, and an increase in facility and other overhead allocations of \$46,000. We continually strive to improve and expand the features of our Cryoport Express® Solutions. Our primary developments are directed towards facilitating the safe, reliable and efficient shipment of life science commodities through innovative and technology-based solutions. We supplement our internal engineering and development resources with subject matter experts and consultants.

*Interest expense.* Interest expense decreased \$271,900 for the six months ended June 30, 2020, as compared to the six months ended June 30, 2019, as the company only incurred interest expense during the six months ended June 30, 2020 starting May 2020 as a result of the issuance of 3% senior convertible notes.

Other income, net. Other income, net for the six months ended June 30, 2020 as compared to the same period in 2019, decreased by \$41,300 due to a net loss of \$468,200 on equity securities which was offset by investment interest and dividend income on our cash and cash equivalents and short-term investments.

#### **Liquidity and Capital Resources**

As of June 30, 2020, the Company had cash and cash equivalents of \$44.3 million, \$163.9 million in short-term investments and had working capital of \$207.2 million. Historically, we have financed our operations primarily through sales of equity securities and debt instruments.

For the six months ended June 30, 2020, we used \$309,600 of cash for operations primarily as a result of the net loss of \$9.7 million offset by non-cash expenses of \$6.3 million comprised of \$3.9 million of stock-based compensation, \$804,800 of realized losses on our equity securities as well as \$1.7 million of depreciation and amortization and a decrease of \$205,200 in other current assets. This loss was partially offset by \$336,600 of unrealized gain on equity securities. Also contributing to the cash impact of our net operating loss, excluding non-cash items, was a decrease in accounts receivable of \$25,500 and an increase in accounts payable and accrued expenses of \$3.1 million.

Net cash used in investing activities of \$119.6 million during the six months ended June 30, 2020 was primarily due to the \$136.3 million purchase of short-term investments, and \$2.5 million for the capitalization of software development costs for our Cryoportal<sup>®</sup> Logistics Management Platform, and additional purchases of Cryoport Express<sup>®</sup> Shippers, SmartPak II<sup>TM</sup> Condition Monitoring Systems, freezers and computer equipment, partially offset by the maturity of short-term investments of \$19.3 million.

Net cash provided by financing activities totaled \$117.0 million during the six months ended June 30, 2020, primarily as a result of net proceeds of \$111.3 million from the issuance of 3% convertible senior notes issued in May 2020 and \$5.9 million in proceeds from the exercise of stock options and warrants.

The Company's management believes that, based on its current plans and assumptions, the current cash and cash equivalents on hand, short-term investments, together with projected cash flows, will satisfy our operational and capital requirements for at least the next twelve months. The Company's management recognizes that the Company may need to obtain additional capital to fund its operations and potential acquisitions until sustained profitable operations are achieved. Additional funding plans may include obtaining additional capital through equity and/or debt funding sources. No assurance can be given that additional capital, if needed, will be available when required or upon terms acceptable to the Company.

#### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

#### ITEM 4. CONTROLS AND PROCEDURES

#### **Evaluation of Disclosure Controls and Procedures.**

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2020. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of June 30, 2020.

In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can only provide reasonable assurance of achieving the desired control objectives, and in reaching a reasonable level of assurance, management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As permitted by SEC guidance for newly acquired businesses, management's assessment of our disclosure controls and procedures did not include an assessment of the controls and procedures of Cryogene, which was acquired on May 14, 2019. Cryogene

accounted for approximately 9.8% of our total assets as of June 30, 2020 and 28% and 13% of our total revenues for the three and six months ended June 30, 2020, respectively.

#### Changes in internal control over financial reporting.

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter ended June 30, 2020 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

#### PART II — OTHER INFORMATION

#### ITEM 1. LEGAL PROCEEDINGS

None

#### ITEM 1A. RISK FACTORS

The risks described in *Part I, Item 1A, Risk Factors*, in our Annual report on Form 10-K for the year ended December 31, 2019 and the following risk factors, could materially and adversely affect our business, financial condition and results of operations. These risk factors do not identify all of the risks that we face. Our business, financial condition and results of operations could also be affected by factors that are not presently known to us or that we currently consider to be immaterial.

#### Risks Related to Our Business

The recent global pandemic caused by COVID-19 has and could adversely affect our business operations, financial performance and results of operations, the extent of which is uncertain and difficult to predict.

In late 2019, a novel strain of coronavirus that causes COVID-19 was reported to have surfaced in Wuhan, China, which has since spread globally. In March 2020, the World Health Organization declared COVID-19 a global pandemic. Further, the COVID-19 outbreak has resulted in government authorities around the world implementing numerous measures to try to reduce the impact of COVID-19, such as travel bans and restrictions, quarantines, shelter in place or total lock-down orders. Many countries around the world have also implemented the temporary closure of non-essential businesses and other material limitations on the conduct of business. As a result of the COVID-19 outbreak and the related responses from government authorities, our business operations, financial performance and results of operations have been adversely affected as a result of reduced demand for our services in all markets and may be adversely impacted in a number of ways, including, but not limited to, the following:

- disruptions to our operations, including a shutdown of one or more of our global logistics centers or our biostorage facility that may be
  caused if our employees become infected with COVID-19; restrictions on our operations and sales, marketing and distribution efforts; and
  interruptions to our research and development activities, engineering, design and manufacturing processes and other important business
  activities;
- reduced demand for our products and services due to disruptions to the businesses and operations of our customers, which may, in particular, result from lower volumes of clinical studies and trials or reduced activity in the reproductive medicine markets due to social distancing restrictions; and reduction in our animal health market due to reduced demand.
- interruptions, availability or delays in global shipping to transport our products;
- a slowdown or stoppage in the supply chain for our products;
- limitations on employee resources and availability, including due to sickness, government restrictions, the desire of employees to avoid contact with large groups of people or mass transit disruptions;
- a fluctuation in foreign currency exchange rates or interest rates could result from market uncertainties;

- an increase in the cost or the difficulty to obtain debt or equity financing could affect our financial condition or our ability to fund operations
  or future investment opportunities; and
- an increase in regulatory restrictions or continued market volatility could hinder our ability to execute strategic business activities, including acquisitions, as well as negatively impact our stock price.

The spread of COVID-19 has caused us to modify our business practices (including employee travel, employee work locations, and cancellation of physical participation in meetings, events and conferences), and we may take further actions as may be required by government authorities or that we determine are in the best interests of our employees, customers, partners, and suppliers. There is no certainty that such measures will be sufficient to mitigate the risks posed by the virus, and our ability to perform critical functions could be harmed.

Additionally, COVID-19 could negatively affect our internal controls over financial reporting as a portion of our workforce is required to work from home and therefore new processes, procedures, and controls could be required to respond to changes in our business environment. Further, should any key employees become ill from COVID-19 and unable to work, the attention of the management team could be diverted.

The potential effects of COVID-19 may also impact many of our other risk factors discussed in in *Part I, Item 1A, Risk Factors*, in our Annual report on Form 10-K for the year ended December 31, 2019. The degree to which COVID-19 impacts our business operations, financial performance and results of operations will depend on future developments, which are highly uncertain, continuously evolving and cannot be predicted, including, but not limited to, the duration and spread of the COVID-19 outbreak, its severity, the actions to contain the virus or treat its impact and how quickly and to what extent normal economic and operating conditions can resume.

# CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

#### I, Jerrell W. Shelton, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of Cryoport, Inc.
- Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects, the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this quarterly report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

# CERTIFICATION OF CHIEF FINANCIAL OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

#### I, Robert S. Stefanovich, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of Cryoport, Inc.
- Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects, the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this quarterly report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.
